

Monthly Program Report: Ilorin Innovation Hub

Reporting Period: February 2026

Month Overview

In February, the Ilorin Innovation Hub continued supporting innovators, founders, and ecosystem actors through focused knowledge-sharing sessions and ongoing venture and talent development programs. The month featured a Builder’s Path session on navigating entrepreneurial setbacks and rebuilding ventures with resilience. Ongoing programs such as the Learn2Earn Fellowship, Pre-Incubation and Incubation Programme, and IIH Accelerator continued advancing founder and talent development. IIH also served as the Ilorin Experience Centre for the InnovateAI Summit, enabling local ecosystem participants to join the national conversation on AI.

Program Overview

Program Goal

February focused on reinforcing IIH’s venture development and talent training pipelines while sustaining ecosystem engagement activities. The month emphasized founder resilience, practical learning, and execution support for startups progressing through accelerator and incubation programs.

Key Activities Conducted This Month:

- **Builder’s Path:** To provide entrepreneurs and emerging builders with practical insight into navigating business setbacks.
- **InnovateAI Summit:** To connect the Ilorin innovation ecosystem to the national AI dialogue.

Progress Against Schedule (Key Performance Indicators):

KPI	Target	Actual	Variance	YTD Actual	Variance YTD

Ecosystem Development (CcHUB)	N/A*	1	N/A	2	N/A
Ecosystem Development (IIH)	N/A*	0	N/A	1	0
Talent Training (Future Africa)	100	171	+71	171	+71
% of Attendance at Virtual Event	33%	71%	+38%	87	N/A
% of Attendance at Physical Events	50%	48%	-2%	354	N/A
Women Participation	30%	N/A	N/A	61	N/A

Key Achievements by Program Managers

Co-Creation Hub (CcHUB)

Role & Focus

Ecosystem Development & Capacity Development for Ecosystem Actors

Key Achievements This Month:

Ecosystem Development:

- **Builder's Path:** Twenty-two participants attended this edition of the Builder's Path fireside chat focused on resilience in entrepreneurship and the realities of rebuilding after failed ideas or ventures. The session helped participants understand how adaptability and long-term thinking shape sustainable ventures. The dialogue also strengthened founder engagement and peer learning within the IIH community.

Technical Training:

- **Animate Africa 3D Training:** Of the 279 learners initially enrolled, approximately 50 remained eligible under the program's defined attendance and milestone thresholds. An AMA session was convened with active learners to address questions, gather feedback, and understand participation challenges. Twelve learners attended the session and indicated a preference for more frequent physical sessions with on-site tutor support rather than the current hybrid format. Despite additional engagement efforts and participation incentives, attendance levels remained low, prompting the team to reassess learner commitment and engagement for the remainder of the programme timeline.

Enterprise Support:

- **Pre-Incubation & Incubation Program:** The 9 pre-incubation ventures and 5 incubation-stage startups remained engaged in the structured curriculum designed to advance ventures toward investment readiness. Session schedules were adjusted to evening time slots to accommodate founder availability and strengthen participation. Following a review of initial milestone documents outlining funding utilization, a panel guidance session was convened to help founders tighten their execution plans. Revised milestone submissions have since been received and are currently under evaluation.

Future Africa

Role & Focus

Talent Development, Acceleration & Demo Day

Key Achievements This Month:

Technical Training:

- **24-Month Learn2Earn Fellowship:** The fellowship commenced with 171 fellows beginning the first phase of the two-year program. The cohort has

started foundational learning modules, beginning with structured prompting and introductory programming concepts ahead of deeper coding tracks. To support early-stage engagement and attendance stability, daily meal provisions were arranged for the first month while classes progressed under the project-based learning model.

Enterprise Support:

- **Accelerator Program:** The accelerator cohort continued progressing through the program's execution phase, with all nine startups advancing toward Demo Day while eight ventures are currently preparing pilot engagements with IHS. Several teams have initiated ecosystem validation activities, including **enee.io**, which completed an operational understudy visit with IHS and is seeking a follow-up session to validate findings and propose solutions. **Gauge** conducted a workflow assessment visit to understand potential sensor integration within IHS operations, while **Insight Works** secured access to three sites in Ibadan to prepare for hardware deployment. **Flowsoft** finalized procurement of key hardware components ahead of solution testing, while **Movvn** is exploring a potential partnership with IHS around cluster-based storage and distribution facilities. **POD** is also engaging with IHS on a possible sewage management solution for the head office, and **SPCTA** has submitted a revised proposal currently under review. Additionally, **PERWER**, **GoChargeAm**, **Pod**, and **Gauge** pitched their solutions at the **Africa Deep Tech Foundation Conference Demo Day**.

Ilorin Innovation Hub (IIH)

Role & Focus

Grassroots Ecosystem Development & Engagement

Key Achievements This Month:

Ecosystem Development:

- **InnovateAI Summit:** IIH served as the Ilorin Experience Centre for the AI in Nigeria InnovateAI Summit, enabling community members, innovators, and ecosystem participants to join the Lagos event virtually. Over 200 participants gathered at the Hub to engage with the summit's discussions.

Enterprise Support:

- **Entrepreneurship Training Programme (DBN ETP 8.0):** Mobilization for the ETP 8.0 continued during the month, with 171 MSMEs registered. Awareness campaigns and ecosystem outreach remain ongoing to expand participation

ahead of the structured training and pitch sessions scheduled within the program timeline.

Gender Registration & Attendance Metrics

- Overall Registration: 512
- Monthly Physical Program Attendance: 231
 - Male Attendees: 0
 - Female Attendees: 0
- Monthly Virtual Program Attendance: 22
- Overall Monthly Program Attendance (Virtual + Physical): 253
- Registration to Attendance Ratio: approximately 2:1

Upcoming Activities & Next Steps

Planned Activities for Next Month

- **CcHUB:** Ilorin DevBox and HERizon
