

HR Report February 2026

1. Executive Summary

The Human Resources Department maintained stable operations in February 2026, with continued focus on workforce management, employee welfare, and administrative coordination.

During the period under review, the organization recorded minor workforce changes, including the onboarding of one NYSC corps member and one intern, as well as the exit of one intern. Staff and corps members also participated in a training and knowledge-sharing session facilitated in collaboration with the IHS team. In addition, the recruitment process for the IHS project remains ongoing.

Key highlights for the month include:

- Onboarding of one NYSC corps member
- Engagement of one intern
- Exit of one intern
- Training / talk session conducted with the IHS team
- Ongoing recruitment process for the IHS project
- Continuous monitoring of staff attendance, welfare, and productivity

2. Workforce Overview

As at the end of February 2026, the organization's workforce composition was as follows:

- Permanent Staff: 16
- Contract Staff: 3
- NYSC Corps Members: 7
- Interns: 3

Total Workforce: 29

3. Recruitment & Staffing

Recruitment activities during the month were focused primarily on early-career engagement and project-related staffing.

One NYSC corps member and one intern were onboarded during the month to support departmental activities. During the same period, one intern exited the organization following the completion of their internship engagement.

In addition, the recruitment process for the IHS project remains ongoing, with HR continuing to coordinate candidate sourcing and engagement in line with project requirements.

4. Training & Development

During the month, staff and corps members participated in a training / talk session facilitated by the IHS team. The session provided valuable industry insights and encouraged knowledge sharing, contributing to staff development and professional growth.

Employees also continued to benefit from on-the-job training, mentorship, and supervision across departments.

5. Performance Management

Overall staff performance remained satisfactory during the month. Supervisors maintained routine monitoring of attendance, task execution, and compliance with organizational policies.

No significant disciplinary or performance concerns were recorded during the reporting period.

6. Compensation & Benefits

All staff salaries, allowances, and stipends were processed in line with organizational policies. HR continued to ensure proper coordination with the finance unit to maintain accuracy and compliance in compensation administration.

Conclusion

February 2026 recorded stable HR operations, minor workforce adjustments, and continued emphasis on staff development. The ongoing IHS recruitment process and staff engagement initiatives further support the organization's operational and project needs.

The HR Department remains committed to supporting organizational objectives through effective workforce management, policy compliance, and employee engagement.
