

NOVEMBER 2025 – FACILITY DEPARTMENT REPORT

1. Executive Summary

November 2025 was one of the busiest months at IIH, dominated by preparations and execution of the **Kwara AI Summit** on the **27th and 28th**. The Facility Department successfully managed multiple simultaneous programmes including **IIH Hackathon**, **UNDP/Mastercard YAI Stage Gating**, **Tech for Market Women**, **Tech for Tax (KWIRS)**, **IIH x CCHub Residency**, **Kwara Build Conference**, and recurring **Learn2Earn Piscine** and **Animate Africa** sessions.

Despite the high workload, all events were successfully executed, janitorial and security operations ran smoothly, and the Hub remained clean, secure, and fully functional. Key achievements included maintenance and repair works, plumbing and AC servicing, solar system cleaning, elevator finishing works, and preparation of multiple halls for large-scale events.

2. Background

IIH serves as a hub for innovation, collaboration, and professional development. November featured a high intensity of activities and structural works to support both ongoing programmes and the flagship Kwara AI Summit.

The Facility Department coordinated technical support, logistics, security, janitorial services, and daily operations to ensure a safe, functional, and conducive environment for staff, participants, and visitors.

3. Events & Programmes

Nov 3–5 – IIH Hackathon (Big Hall & Pitch Hall)

- Full hall setup for participants
- Technical support, power arrangement, seating & extension boxes
- Cleanup and hall reset at the end of each day

- Experienced **power blackout** during the event; generators used to mitigate disruptions

Nov 6 – T Foundation: Tech for Market Women (WS2)

- Workspace preparation, seating, and technical support

Nov 6 – Tech for Tax (KWIRS) – Main Hall

- Full hall setup, sound checks, and janitorial support

Nov 7 – IHH x CCHub Residency (Day 1) – Main Hall

- Media setup, projection, seating & technical support

Nov 7 – IHH Mix & Mingle – Main Hall

- Evening event coordination, security, and cleanup

Nov 10–13 – UNDP/Mastercard YAI Stage Gating – Main Hall & Workspace

- Daily hall arrangement
- Cafeteria coordination
- Technical standby throughout

Nov 10–13 – IHH x CCHub Residency (Continuous Activity)

- Workspace setup, seating, and technical support

Nov 13 – IHH x CCHub Mix & Mingle

- Hall setup, branding placement, sound, and janitorial support

Nov 14 – Learn2Earn Check-In – Big Hall

- Seating arrangement, cleaning, power, and extension box support

Nov 18–19 – IHH x CCHub Kwara Digital Health – Pitch Hall

- Technical setup, power management, and cleaning support

Nov 20–22 – Kwara Build Conference – Main Hall & Breakout Rooms

- Multi-room setup

- Seating arrangement, signage, and crowd management
- Janitorial and technical standby

Nov 27–28 – KWARA AI SUMMIT – Big Hall, Pitch Hall, Café, Compound

- Full-scale facility activation
- Stage setup, seating for VIPs and participants
- Sound, lighting, video, and power distribution
- Security coordination (DSS, Civil Defence, KWATMA, private security)
- Janitorial teams ensured continuous cleaning of restrooms, halls, and outdoor areas
- Waste managed promptly and efficiently
- Traffic and crowd control implemented successfully

Recurring Activities

- **Learn2Earn Piscine** – Weekly support in Computer Lab and Big Hall
- **Animate Africa Sessions** – Thursdays in Computer Lab
- Both recurring programmes included setup, seating, cleaning, power readiness, and IT support

4. Facility Operations (Works & Projects)

Nov 2–9

- Hackathon support across Big Hall and Pitch Hall
- Generator reset, power routing adjustments after blackout
- Replaced national flags
- Generator house wall framing, overhead beam, and plinth works completed
- Area cleaned and cleared of construction debris

Nov 10–11

- Screeding of elevator area continued
- Cleared dust and debris for safe access

Nov 12

- Solar system low charge observed; panels cleaned and inverters checked
- Technical team restored stable power

Nov 13

- Leaking pipes identified and reported
- Fallen streetlight noted and scheduled for replacement
- Sprinkler heads tested

Nov 14–18

- Pipe repairs and replacements
- AC maintenance and filter cleaning across offices and halls

Nov 19–20

- Continued plumbing repairs and AC checks
- Safety inspections conducted

Nov 22

- Completed remaining plumbing repairs
- Removed faulty transformers to prevent hazards
- Secondary solar panel cleaning performed

Nov 23–26

- Pre-Summit preparations: cleaning, seating layouts, AC, lighting, sound, and extension box checks

- Security coordination for traffic and crowd control

Nov 27–28

- Full facility activation for Kwara AI Summit
- Continuous janitorial cleaning
- Technical support for lighting, sound, video, and power
- Security management and VIP arrangements
- Waste collection and post-event restoration

5. Janitorial & Security Summary

Janitorial Services:

- Daily sweeping, mopping, dusting, cobweb removal, and glass cleaning
- Special deep cleaning for event halls, restrooms, and AC units
- Continuous support during Hackathon, UNDP/Mastercard, Kwara Build, and Kwara AI Summit

Security Operations:

- Daily patrols and access monitoring
- Smooth operations throughout the month with no reported major incidents
- Security successfully managed traffic and crowd during major events
- VIP areas and high-risk points monitored continuously

6. Challenges & Mitigations

- **Power Dependency & Blackouts:** Hackathon blackout affected events; generator and solar cleaning mitigated impact.

- **Waste Disposal Timing:** Adjusted collection schedule to every 3–4 days to manage heavy event debris.
- **Facility Damage:** Fallen streetlight and garden light affected; repairs scheduled.
- **Furniture & Equipment:** Learn2Earn provided substandard tables/chairs; toilet stall knobs unavailable locally.
- **Screen & AC Issues:** BlockDAG and summit events experienced multiple screen faults; ongoing monitoring implemented.
- **Environmental Safety:** Plumbing leaks, AC wiring, and solar exposure require ongoing inspection.

7. Outcomes & Achievements

- **Kwara AI Summit** successfully hosted with full logistics, security, and janitorial support
- IIH Hackathon and UNDP/Mastercard programmes completed smoothly
- Elevator finishing, generator house, solar panel cleaning, and transformer removal improved facility infrastructure
- Janitorial and Security teams operated efficiently throughout high-intensity events
- Recurring programmes (Learn2Earn, Animate Africa) ran without interruption
- Improved facility readiness, power distribution, and workspace usability

8. Recommendations

- Continue phased procurement of new functional furniture and classroom equipment
- Conduct routine pest control, AC servicing, and plumbing inspections
- Install replacement streetlight and garden light supports
- Ensure solar systems are regularly cleaned and monitored
- Maintain standby generators and power routing strategies for large-scale events
- Review and reinforce waste disposal schedule to meet high event demand

9. Conclusion

November 2025 was an intense and transformative month for IIH. Despite power challenges, plumbing and AC issues, and the demands of multiple high-profile programmes, the Facility Department ensured the Hub remained clean, secure, and fully operational. The successful hosting of the **Kwara AI Summit**, Hackathon, and other major events, alongside ongoing maintenance and infrastructure improvements, demonstrates IIH's readiness for continued innovation, learning, and collaboration.
