

December 29, 2022

Ref: IIH/MD/2022/12/004

His Excellency,
The Executive Governor of Kwara State,
Government House,
Ahmadu Bello Way,
GRA, Ilorin, Kwara State

Your Excellency Sir,

REQUEST FOR APPROVAL & RELEASE OF FUNDS FOR E-GOVERNMENT

HACKATHON EVENT ON JAN 28-29 2023

I write to request for approval for hosting and the release of funds for the proposed E-Government Hackathon on the 28th and 29th of January 2023. The goal is to come up with at least five working solutions that the government can adopt and will increase efficiency in government administration. The two day event will have the following format:

VENUE

Kwara State Banquet Hall, Ahmadu Bello Way, GRA, Ilorin

SCHEDULE

Saturday January 28, 2023	Sunday January 29 th , 2023

From our assessment of government processes and research done over the past year, the following problems are key and will be thrown open to get a working solution by the end of the exercise.

1. Memo & Correspondence Tracking Software
2. Citizens Secure Digital ID System
3. Transport App
4. Government Point of Sale Payment System

We are open to further suggestions of solutions to tackle. So far we have secured the partnership of the **UK-Nigeria Tech Hub, NITDA, MTN, IHS Towers, Femtech, KWASU, Kwara Build** and more to come in the days leading up to the event.

Benefits of this hackathon

1. The Kwara State Government will have five working solutions for solving problems within government processes in the state for a fraction of what an external consultant would charge. Total Prize money is $N2m \times 5 = N10m$.
2. The young people of Kwara State have an opportunity to showcase their talent and meet like minds to share challenges, experience and collaborate with, during and after the event.
3. This event will be the first step towards the eventual E-Government Summit which will be a yearly event at the Ilorin Innovation Hub. E-Government will be a focus area of the hub to transform the Kwara State Government into a truly digital government.
4. The documentary produced at the end of the event will be a story told in preparation for the launch of the Ilorin Innovation Hub to showcase. It will cover old analog method of operations occurring in some government establishments and the process of proffering/building a solution and then down to deployment.
5. It will be a perfect opportunity to sell the purpose of the innovation hub to stakeholders within the state.
6. We will have the set furniture to belong to us for use at the Innovation Hub Building after the event.
