Overview

The Ilorin Innovation Hub is a state-of-the-art structure that will be the best innovation & technology structure in Nigeria and West Africa. The building will serve the following main purposes:

- Create a conducive environment for people to work, interact and learn.
- Provide opportunities for tenants and visitors
- Provide affordable feeding options
- Provide basic retail for offices
- Conduct events and build a community-driven tech ecosystem

To achieve this, different sections of the Innovation Hub are being allocated to serve these needs.
